

Paris, June 16, 2021

Press Release

The State of the African Diaspora (SoAD) and the ECO – 6 region have availed a stimulus package of 6.26 Lumi (equivalent to 100 USD) to every African on the continent or out of it every month until October 2023. The Lumi is an African digital currency that is crated to support our economy in Africa and in the Diaspora.

It has come to our notice that there are some individuals who are going around the country of Zimbabwe demanding and charging people money in order to register them on the SWIFIN platform to receive the stimulus package. The public should be advised that registration on the SWIFIN platform to receive the stimulus package is absolutely FREE, as is written on the website.

SoAD and Eco-6 therefore disassociate themselves from the agents and outlets that are charging fees and attaching groceries to the initiative, which is not in line with our policy. These people may be reported to the police, and face criminal prosecution for fraud and abuse.

Dr Louis-Georges Tin  
Prime Minister of the State of the African Diaspora  
Secretary General of Eco-6
